### Wisconsin Association for Justice

The Wisconsin Association for Justice (WAJ) is the largest voluntary statewide bar organization in Wisconsin. The organization's principal objectives are to promote continuing legal education for the betterment of the trial bar profession; and to preserve Wisconsin's civil justice system by working with the state legislature and other governmental bodies, as an advocate for the legal rights of all Wisconsin citizens. WAJ promotes a fair and effective justice system - one that ensures justice for all, not just a privileged few. WAJ supports the work of attorneys to ensure any person harmed due to work place injury or injured by the misconduct or negligence of others can have a fair day in court, even when taking on the most powerful interests. WAJ and its members are dedicated to benefiting communities across Wisconsin through local events and charitable giving.

### Clean Wisconsin

Clean Wisconsin is a nonprofit environmental organization that advocates on behalf of its over 25,000 members for clean air, clean water, and clean energy. Formed in 1970 as Wisconsin's Environmental Decade, Clean Wisconsin works to hold polluters accountable, in state agencies and the courts. For over 45 years, Clean Wisconsin has led the fight to enact state policies such as the mercury reduction law, the Great Lakes Compact, Wisconsin's recycling law, groundwater protections, and creating the Focus on Energy program, among many other policies that help protect Wisconsin's natural resources. Clean Wisconsin relies on its staff of scientists, attorneys, lobbyists, and communications experts to support its policy and legal work, ensuring that this work is based on sound evidence and thoughtful strategy.
